3 Primary Healthcare Budget Performance

3.A Overview

The Primary Health Care (PHC) sector in Bayelsa State, Nigeria, serves as the foundation of the state's healthcare system, providing essential services to both urban and rural populations. Managed by the Bayelsa State Primary Health Care Board (BSPHCB), the sector is responsible for coordinating the delivery of basic health services across the state's eight Local Government Areas. PHC centres in Bayelsa offer a wide range of services including maternal and child health care, immunization, disease prevention, treatment of common illnesses such as malaria and respiratory infections, nutrition support, and health education. Despite its critical role, the PHC sector in Bayelsa faces several challenges.

Many centres suffer from inadequate infrastructure, lack of clean water and electricity, and insufficient medical supplies. Additionally, there is a shortage of trained healthcare personnel, including doctors, nurses, and community health workers, particularly in riverine and hard-to-reach areas. Funding constraints and poor road networks further hinder the effectiveness of healthcare delivery. However, there have been notable efforts to improve the system.

The state government, in collaboration with development partners such as the World Health Organization and UNICEF, has undertaken initiatives to renovate PHC facilities, recruit more health workers, and enhance immunization campaigns. The introduction of the Bayelsa Health Insurance Scheme (BHIS) also marks a significant step toward increasing access to affordable primary healthcare. Continued investment, improved infrastructure, and strengthened community engagement are essential for building a more resilient and effective PHC system in Bayelsa State.

A summary of the performance Year to Date (YTD) against the original budget is provided below for the main economic classifications of expenditure, and YTD against the programme segment (Objective level) is depicted in Figure 3.

4 Basic Education Budget Performance

4.A Overview

The basic education budget performance in Bayelsa State has been marked by both commendable allocations and notable implementation challenges. In the 2025 fiscal year, the state government allocated ₦60.8 billion to the education sector of which ₦11.4 billion was budgeted for Basic Education Expenditure reflecting a significant commitment to enhancing educational infrastructure and services. This allocation underscores the government's recognition of education as a pivotal sector for the state's development.

Despite these substantial budgetary provisions, the actual performance in terms of fund utilization has faced hurdles. Quarterly Budget Performance Reports from 2024 indicate that while allocations were made, the disbursement and utilization of these funds were inconsistent. For instance, certain quarters showed underutilization of allocated funds, which can impede the timely execution of educational projects and programmes. Such discrepancies between budgetary allocations and actual expenditures highlight challenges in financial management and project implementation within the education sector.

Moreover, assessments of the Bayelsa State Education Development Trust Fund (BEDTF) reveal that while efforts have been made to support basic education, there remain gaps, particularly in areas like adult and non-formal education. Studies suggest that the BEDTF's contributions to these areas have been minimal, indicating a need for a more inclusive approach to educational funding.

A summary of the performance Year to Date (YTD) against the original budget is provided below for the main economic classifications of expenditure, and YTD against the programme segment (Objective level) is depicted in Figure 4.
